

# Waste One Green Statement

At Waste One, we are committed to reducing our impact on the environment and promoting sustainability in all of our operations. We recognize the importance of protecting the natural resources of the United Kingdom and are dedicated to implementing environmentally friendly practices.

We aim to reduce our carbon footprint by incorporating green technologies and implementing energy-efficient measures. We will also work to reduce waste by promoting recycling and composting, and by encouraging the use of eco-friendly products and services.

We are committed to compliance with all relevant UK environmental laws and regulations, and will strive to continuously improve our environmental performance. We will also communicate and engage with our stakeholders on our environmental initiatives and performance.

We believe that by working together, we can make a positive impact on the environment and create a sustainable future for the UK.
